Chapter 1

Literacy

It is important to note that literacy is

- dependent on the context, and
- not absolute, but rather has degrees of literacy levels

What are the competencies required for a person to be information literate?

1. To know when information is needed and how much is needed
2. To be able to find information (knowledge about sources, as well as the necessary technology skills)
3. To be able to evaluate the information
4. To be able to use the information to accomplish a specific goal
5. To understand the importance of information and how to use it responsibly
6. To communicate effectively in the digital environment

What information will I need to achieve my goal?

Ask yourself:

1. What kind of information do I need?
2. In what format should these potential sources of information be?
