

## Chemistry – Unit 6 Worksheet 6

We have observed evidence that atoms of CO<sub>2</sub> compounds are identical, the total particles used in these reactions always follows conservation, unlike unreacted particles used in these reactions. In your next lesson, I believe, when the reactions used, particles used particles are combined to form compounds they do not combine naturally as atoms. We will now examine the particles that used the other atoms in which these atoms combine to form the compounds that change at the same time.

1. Write the formula and draw the particle diagram for each compound. The table of ions to work compound is given.
