officials working in international trade environments Taxation of Crypto Assets Niklas Schmidt, Jack Bernstein, Stefan Richter, Lisa Zarlenga, 2020-11-27 The emergence of crypto assets has required taxation authorities worldwide to develop unprecedented policies and compelled tax lawyers to apply existing laws in new ways This book the only one to focus solely on the taxation of crypto assets provides a detailed country by country analysis of how the tax law of thirty nine countries may apply to this rapidly developing area including different use cases and compliance and documentation requirements Following an overview of the technology and key characteristics of crypto assets as well as the key tax concepts and types of taxes that could apply to them leading practitioners in each particular jurisdiction summarize the relevant tax law in that country Fully explained are such aspects of crypto assets as the following and how they are interrelated sales exchanges receipt as remuneration forks airdrops mining staking initial coin offerings security token offerings and initial exchange offerings Contributors describe how each jurisdiction applies income and capital gains taxation value added tax and sales tax withholding taxes transfer taxes and gift inheritance estate and wealth taxes in the context of crypto assets Reporting requirements and enforcement are also covered Tax law as it applies to crypto assets is new and continues to evolve This book will be welcomed as the premier resource for tax practitioners government officials advisors investors issuers users of crypto assets and taxation academics who are seeking informed awareness of the policy choices countries make in dealing with the taxation of this new technology Tax lawyers dealing with crypto assets will have comprehensive practical guidance on how to comply with the tax laws of multiple jurisdictions **Legitimate Expectations in the Common Law World**

Matthew Groves, Greg Weeks, 2017-01-12 The recognition and enforcement of legitimate expectations by courts has been a striking feature of English law since *R v North and East Devon Health Authority ex parte Coughlan* 2001 3 QB 213 Although the substantive form of legitimate expectation adopted in *Coughlan* was quickly accepted by English courts and received a generally favourable response from public law scholars the doctrine of that case has largely been rejected in other common law jurisdictions The central principles of *Coughlan* have been rejected by courts in common law jurisdictions outside the UK for a range of reasons such as incompatibility with local constitutional doctrine or because they mark an undesirable drift towards merits review The sceptical and critical reception to *Coughlan* outside England is a striking contrast to the reception the case received within the UK This book provides a detailed scholarly analysis of these issues and considers the doctrine of legitimate expectations both in England and elsewhere in the common law world **Charity Law** Juliet

Chevalier-Watts, 2017-09-14 This work provides an analytical and comparative analysis of the development of charity law as well as providing a critical commentary on a number of contemporary changes within the charity law field across a range of common law jurisdictions The book follows earlier studies which cover a similar and traditional jurisdictional spread but which are now dated It further considers in detail charity law issues within Hong Kong and Singapore about which there has been historically more limited charity law discussion The area is growing in terms of practical legal and academic interest
