**Non-Recognized States in the Post-Soviet Region under International Trade Law, Private International Law and International Civil Procedure** Alexander Trunk, Anastasiia Rogozina, Marina Trunk-Fedorova, 2025-02-18 Non recognized States are a widespread and politically sensitive de facto phenomenon in international politics raising numerous questions from both a public international law and private law perspective The present book deals with rarely analysed questions on how States deal with legal issues of private law arising with regard to non recognized States and what issues of international trade and investment law arise in such cases The book takes the non recognized States that emerged in the post Soviet area after 1990 1991 as examples but also makes references to other non recognized States The book is written from a comparative perspective giving room to authors from various States and non recognized States state like entities alike Recent developments have led to the disappearance of three non recognized States in the region In this regard the book may also be interesting as a source of information that has already disappeared or will probably soon disappear from the Internet Further the book is highly relevant for the remaining non recognized States in the region while also offering a source of inspiration for private law including civil procedure and investment law aspects concerning non recognized States in general
