## Chapter 6

- Harold tell us that dogs have 300 million olfactory receptors, and humans have 6 million olfactory receptors. How many receptors do you think cats have? (The answer is on the next page when you are ready to check!)
- Why did Chester cover the entire living room in garlic? Do you know what garlic smells like? Do you like it?
- Harold knows some interesting star Constellations! Do you know any star constellations? What are they called? What do they look like? Try to find some next time you are outside at night with your family!
- When Harold sleeps, he dreams of a cupcake surrounded by bones. If you have a pet, what do you think it dreams about? If you had a dog, what do you think it would dream about?
