For the houses shown in this volume, represent design equal to or superior to most conventional houses. Each of these eco houses is unique. Some tread lightly on the site by nestling into the land. Others are designed to be

extremely well suited to the climactic zones in which they are built Many use materials that do no harm to the environment materials that are recycled salvaged or harvested The houses featured in Sustainable Homes are designed by today s top architects such as Obie Bowman Fernau and Hartman Hanrahan and Meyers and Lake Flato They reveal how much the parameters of ecological design have expanded in just a few short years Over two dozen individual houses are featured from locations as diverse as a Canadian cove to the Arizona desert from Kansas plains to the Norwegian coast from California bluffs to South Carolina wetlands each described through descriptions photographs plans drawings and schematics
