

Inferential Questions

What are inferential questions? Inferential questions require readers to use background knowledge and critical thinking skills to make educated guesses or draw conclusions based on the clues given in the text. For these types of questions, the readers are unable to put their fingers directly on the answers. The answers are not explicitly, or clearly, stated.

For example, let's consider the following passage:

"When Sarah woke up, she looked outside and saw dark clouds covering the sky. She decided to stay indoors and spent the day playing board games and reading her favorite book."

Inferential questions based on this passage would include:

1. Why do you think Sarah stayed inside the entire day?
2. How do you think Sarah felt about having to stay inside? Explain.

Now, go back to question one. Think about the answer based on what you read. Write your answer. Do the same with question 2.

Quick Check: What are inferential questions?

- a. questions that have answers explicitly stated
- b. questions that don't require educated guesses
- c. questions that require thinking skills and background knowledge.
