S. Cohen, 2025-04-15 Recognizing Sinocentrism as the core motivation behind Xi Jinping's vision for the reconstruction of Asia Rozman Sun and Cohen present a comprehensive and updated analysis of Chinese foreign policy toward Asia uncovering the deep seated calculations behind Xi's policies across four arenas of distinct interest in the last decade The book employs

strategic thinking and Chinese language resources to examine multiple areas of China's foreign policy gaining insight into policy development and its wider consequences for Asia. It critically examines numerous facets of China's foreign policy including Chinese perceptions of the US role in the Indo-Pacific strategic thinking toward Northeast Asia, policies toward India, Southeast Asia, and Australia, and the approach to Central Asia to comprehensively ascertain Xi's strategies and motivations. By examining the reticence of Chinese spokespeople and publications to identify the objectives of China's policies over a decade, the book interrogates the predominant motivation of Xi's Sinocentrism in creating a dominant civilization insistent on subservience within its sphere. The authors provide a timely assessment of China's grand strategy and Xi Jinping's ambitious efforts to build a Sinocentric axis in Asia, and a valuable resource for students, academics, policymakers, and researchers of Asian Studies, International Relations, Asian security, Xi Jinping thought, Sinocentrism, and Chinese foreign policy.

Naval Powers in the Indian Ocean and the Western Pacific Howard M. Hensel, Amit Gupta, 2018-05-11. A vital component of the interdependent global economy, maritime transit routes are nowhere more critical than those traversing the Indian Ocean and the Western Pacific. Previously, areas of the Indian Ocean and Western Pacific have been viewed as separate and discrete political, economic, and military regions. In recent years, however, a variety of economic, political, and military forces have created a new understanding of these maritime expanses as one zone of global interaction. This book complements the material presented in its companion volume, *Maritime Security in the Indian Ocean and the Western Pacific*, by analysing the perceptions, interests, objectives, maritime capabilities, and policies of the major maritime powers operating in the Indian Ocean and the Western Pacific. In addition, the book also assesses the contemporary maritime challenges and opportunities that confront the global community within what is rapidly becoming recognised as an integrated zone of global interaction. A valuable study for researchers and policymakers working in the fields of maritime security, military security, and peace studies, conflict resolution, and Asian affairs.
