Introduction

Note: All essay answers throughout the semester must be composed in the html text editor below.

10 10

The objective of experiment 4 was to use student's knowledge about acid-base and precipitation reactions that occur in aqueous solutions in order to identify ionic substances present in each solution. The described objective was accomplished by combining 7 unknown solutions by using litmus and flame tests in order to determine which cations and anions were present in each solution. When combining the different solutions, changes in the final
