Environmental Stewardship Dorothy J. Howell,1997-07-23 This work addresses the cultural background of stewardship as a progression from individual personal aesthetics to a deeply informed environmental ethic that could become a national environmental policy Howell begins by assessing our personal cultural background and our philosophical notions of our role in the natural world She looks at the evolution of Western civilization and changing worldviews in relation to nature examining especially early conceptions of a more appealing simpler life closer to nature in contrast to the perceived civilized world that is portrayed as decadent Howell examines archetypes from literature and the popular arts finding examples in Jungian psychology and in contemporary film and television that support the Wild Man image and promote the Simple Life yearning She then looks at the early 20th century conservation and preservation writers as the most direct ancestors of today s environmental movement and an immediate source of inspiration

Transforming Development Practice and Environmental Stewardship Ronald James Whitmore,1998 **Grassroots Stewardship** F Stuart Chapin III,2020-06-03 In a society more concerned with how to cope with existential dread than how to make actionable changes to save the planet a surprisingly large number of Americans identify as environmentalists What can individual people do to lessen human impacts on the planet This is not an easy question Most research is focused on large scale changes that go beyond anything an individual can accomplish and people are left feeling defeated rather than inspired to make changes in their everyday lives Change starts at home and F Stuart Chapin III has assembled a book for people who want to learn more about global changes and more importantly what they can do about them starting today Grassroots Stewardship approaches our current situation with an educated sense of hope and positivity This book emphasizes actions by individuals rather than

governmental or corporate institutions to trigger transformational change Readers will learn what they can do to most significantly transform their communities and the planet with more sustainable pathways

The Nature of Environmental Stewardship Johnny Wei-Bing Lin, 2016 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In this book climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavor He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues Dr Lin wants peace between folks who are well intentioned but unable to agree be they Christians or not Peace as we wrestle with science and Scripture over our stewardship of God s beloved creation Lin gives us well considered ways to sift competing views and supposed facts This book comes from a master teacher and irenic fellow struggler A very important synthesis of worldview driven informed arguments Terry Morrison Director Emeritus Faculty Ministry InterVarsity Christian Fellowship USA By carefully breaking environmental stewardship down into its component parts this book offers readers a framework to dialogue instead of debate the imperative of creation care Grappling with the fact that today s ecological and economic challenges cannot be contained by a simple ideology nor a single imagination Lin guides us toward both a practical synthesis of collective human wisdom and a higher level of conscientiousness in protecting all that God loves Kaleb Nyquist Steering Committee Member Young Evangelicals for Climate Action Johnny Wei Bing Lin BS and MS Stanford University PhD UCLA was Professor of Physics at North Park University where he remains Affiliate Professor of Physics and Engineering Currently he is Senior Lecturer and Director of Undergraduate Computing Education in the Computing and Software Systems Division at the University of Washington Bothell

Environmental Justice Barry E. Hill, 2009 Environmental risks and harms affect certain geographic areas and populations more than others The environmental justice movement is aimed at having the public and private sectors address this disproportionate burden of risk and exposure to pollution in minority and or low income communities and for those communities to be engaged in the decision making processes Environmental Justice provides an overview of this defining problem and explores the growth of the environmental justice movement It analyzes the complex mixture of environmental laws and civil rights legal theories adopted in environmental justice litigation Teachers will have
