Crane Serial Number

The crane serial number is stamped on the crane capacity plates. Two sets of the capacity plates are located on the crane. One set is located in the operator's cab on the left side of the interior and the second set is located on the rear exterior of the engine housing. The crane serial number should always be furnished when ordering parts for the crane, or when corresponding with the distributor or factory regarding the crane. The serial number is

the only method the distributor or factory has of ensuring that the correct parts will be furnished.

In the event the serial number can not be found on the capacity plate, a number is stamped on the top of the bumper on the right side of the carrier and on the right side of the upper frame just below the boom hoist cylinder leg. This number can then be used to identify the crane.
