

## Bacteriological Analytical Manual (BAM)

FDA's Bacteriological Analytical Manual (BAM) presents the agency's preferred laboratory procedures for microbiological analyses of foods and cosmetics. AOAC International published previous editions of this manual in a loose-leaf notebook format, and, more recently, on CD-ROM. This online BAM is now available to the public. Some changes have been made to methods since the previous version. A listing of chapters updated since the last hard-copy version (Edition 8, Revision A, 2008) can be found in [About the Bacteriological Analytical Manual \(/food/laboratory-methods/about-bacteriological-analytical-manual\)](#). The members of the BAM Council are listed below. In addition recent changes for most Chapters are documented in a brief Revision History at the beginning of the Method. There is also e-mail contact information for each Chapter. Chapter numbers have been retained from the previous version. However, for this Table of Contents, chapters have been grouped by category. Please send comments to Karen Jinneman (<mailto:Karen.Jinneman@fda.hhs.gov>).
