Jones,2021-12-29 Math For the Folks Slow to Anger Quick to Rise is a composition of essays poems and sermons covering my own perilous journey with the mathematical craft over the last few years It is not a mathematics textbook per say and as such I hope that the reader remains undaunted and therefore inspired by the various avenues of my thought process that go far beyond mathematics and into other areas of life Further staying true to my own childhood beliefs and conceptions I pray that this book reads like a journal that outlines many themes of the American experience among which are sports family math music politics and most importantly my relationship to myself others and a God placed high above me Enjoy There will be much more to come **Balancing the Common Core Curriculum in Middle School Education** James H.

Bunn,2017-01-09 This book examines the idea of good education which is thought to include a scientific and technical component a mathematical component a writing component and an ethical and aesthetic component Bunn proposes a new three way intersection in these teachings the basic sciences and mechanics of leveraging on a seesaw the basic formulations of patterning an algebraic equation and the basic rules for writing a sentence in English In all three forms of inquiry balance is the mainstay through which problems in US middle school education are brought together and analyzed [My Life and Thoughts](#) James Ivey Davis,2011-04-29 Born during the Great Depression in rura Alabama his family moved to the Southwest when he was six months old He describes his life journey over the next 70 years which was strongly influenced by the great societal and technological changes of that period Most of his life choices were driven by a need to succeed His strong independence and leadership qualities were identified early From high school dropout and military service to Ph D in physics validated his drive Being a young paratrooper living in Africa in the 1960 s and long motorcycle trips added a bit of excitement Long hours working and leading high technology programs in California afforded many opportunities for scientific and technical contributions and led to extensive travel much of it foreign which he describes in some detail Here is a man who is tough fair out spoken and a whole lot of fun I saw him as a handsome charming man who found love and family Children and grandchildren enriched his life He had many trials and tribulations and he faced them all squarely You might say like Zorba he experienced the full catasrophe Roberta Claire a friend **Nigeria** Alfred Obiora Uzokwe,2015-08-22 This book is a

collection of Alfred Obiora Uzokwes critical commentaries about Nigerias triumphs woes and the way forward It brings his writings into one volume as a reference material for those conducting research about the country It will also serve as another tool for Nigerias policy makers in their everyday quest for better decision making The subjects of the commentaries are diverse including politics aviation infrastructure health welfare and economy Nigerians are resilient and ingenious but the country continues to flounder plagued by poor transportation infrastructure corruption unemployment inflation insecurity and poor standard of education The problems of Africas most populous nation can be traced to rudderless and selfish leaders that have continued to preside over a unidimensional economy With plummeting oil prices the nation is now in dire straits more than ever before Yearning for a change in leadership and direction Nigerians recently voted in a new government at the center headed by a former military leader who has vowed to institute change The world is keenly watching to see if the soldier turned politician would make a positive difference In spite of the difficulties of the present time Nigeria still has the potential of becoming a great economy Social media where citizens freely vent their thoughts about their leadership is slowly gaining the attention of leaders Furthermore the sometimes scathing commentaries about Nigerias leaders by the media and commentators like Alfred Obiora Uzokwe can no longer be ignored by the leaders because of their reach in this internet age Nigerian leaders are slowly being forced to listen to and pay heed to the yearnings and aspirations of the masses and that is a step in the right direction
