

Economics Research Paper Proposal

Assignment: You need to decide on a topic to research for your term paper. The topic can cover anything that you want as long as you can explain why it is relevant to economics.

- Think about the following when brainstorming your topic:
 1. Previous knowledge
 2. Course content
 3. Personal or professional experiences/interests

- Use one of the following brainstorming strategies to come up with your research topic: list, map, or freewrite on a separate sheet of paper.

- Now, go online and survey sources.
 1. Read abstracts, headings and subheadings.
 2. Make note of charts, statistics and graphs.
 3. Read the reference lists.
 4. Read introductory and summary paragraphs.
 5. Skim body.

- Find 3 reliable sources and cite them in MLA style. Under each source, you must briefly explain why the source is reliable, and how you can use it in your paper.

- This should help you to FOCUS your topic.
 - Examples:
 - Topic: Technology and consumerism
 - Focused topic: the way television impacted consumerism within the nuclear family from the mid-50s to the early 60s.

 - Topic: Environmental issue connected to global warming
 - Focused topic: coal fires

Your brainstorming method, 3 sources, and focused topic will be due on Friday, April 6. On that day, you will be getting the rest of the requirements for your paper, including a schedule of the research process. This assignment is worth 50 points and will be a part of your final paper grade. Students who do not turn this assignment on time will receive a phone call home and will need to attend GSH the week of April 8.

Economics for Humanity Mitsuaki Okabe,2024-08-26 Economics is often referred to as the queen of social sciences This is because mainstream economics has been established as an elegant academic discipline by assuming mankind simply to be homo economicus an image of human beings showing interest in only material fulfilment and acting solely in his interest This book challenges this basic perception of human beings By replacing it with a more realistic and multifaceted human motive as supported by research in various academic disciplines the book tries to provide a novel and more plausible picture of human society Specifically the book takes in such human aspects as pursuing well being forming human networks and the realisation of potential of ability Thus if we try to better understand human motives and the society it becomes necessary to replace the conventional two sector market government social model with a more general and theoretically superior social model the three sector model consisting of market government non profit sectors This book demonstrates the validity of this new view by utilising basic principles of economic policy and social welfare analyses Moreover the book has introduced a newly developing practical philosophy in Japan over the last 50 years to achieve both individual well being and better human society **Economic Papers** ,2005 **Teaching Economics** G.
