The World of Science Education, 2019-02-11

Each volume in the 7-volume series *The World of Science Education* reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe and Israel, North Africa and the Middle East, and Sub-Saharan Africa. The focus of this Handbook is on North America, Canada, US science education, and the scholarship that most closely supports this program. The reviews of the research situate what has been accomplished within a given field in North America rather than in an international context. The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education. The thrust lies in identifying the roots of research programs and sketching trajectories focusing on the changing face of problems and solutions within regional contexts. The approach allows readers to review what has been done and accomplished, what is missing, and what might be done next.

5 Steps to a 5 500 AP Environmental Science Questions to Know by Test Day, Jane P. Gardner, Chris Womack, Stephanie Richards, Thomas A. editor - Evangelist, 2011-11-28
