D800

D800E

Introduction

This “Technical Guide” details the principal techniques used to create two of the more technically advanced photographs in the D800/D800E catalog. Enjoy this opportunity to admire the skills of professional photographers who have mastered the D800/D800E.

While its high pixel count of 36 megapixels gives the D800/D800E resolution unrivalled by previous digital SLR cameras, a side effect is that *bokeh* and blur are made that much more obvious. Realizing the full potential of a camera with over 30 million pixels involves a thorough appreciation of *bokeh* and blur, careful selection of settings and of tools (such as lenses and tripods), and working with the best possible subjects.
