AQA Foundation, 2002 Developed for the AQA Specification revised for the new National Curriculum and the new GCSE specifications The Teacher File contains detailed support and guidance on advanced planning points of emphasis key words notes for the non specialist useful supplementary ideas and homework sheets *Entry Level Maths* Gill Hewlett, 2004 Contains additional activities allowing students to extend their work either in the classroom or for homework The Pack also includes a range of certificates that can be handed out to students as a reward for hard work

Citizenship and Democracy in Further and Adult Education Neil Hopkins, 2013-07-30 This book addresses the questions why citizenship education is an important subject for students in further and adult education and why we need democratic colleges to support the study of citizenship education It investigates the historical roots of further and adult education and identifies how the adoption of citizenship education in the post compulsory sector can enrich vocational studies in further education and programmes in adult education It is argued that democratic colleges are vital to ensure that citizenship education informs the decision making process throughout educational institutions and as a means of establishing fair and equal representation for important stakeholders The author has worked in both sectors for over a decade and uses this experience to offer a blend of educational practice and philosophical investigation The result is a work that appeals to both teachers in further and adult education as well as academics and students interested in philosophy of education

Making Every PE Lesson Count James Crane, 2024-06-18 Written by James Crane Making Every PE Lesson Count Six principles to support great physical education teaching provides realistic and practical strategies that will help teachers make abstract ideas more concrete and meaningful in both practical and theory PE PE provides a unique opportunity for some students to flourish and become professional athletes or achieve excellent academic outcomes However if you ask any PE teacher their main aim is that all students leave school with a love of physical activity and lifelong participation in sport The benefits on physical mental and social health are undeniable The place PE holds in the curriculum is therefore fundamental to society in that it acts as a vehicle to promote resilience determination and perseverance Writing in the engaging style of the award winning Making Every Lesson Count series James Crane articulates the fundamentals of great PE teaching and shares simple and practical strategies designed to challenge students across all aspects of the subject In an age of educational quick fixes and ever moving goalposts this precise and timely book returns to the fundamental questions that all PE teachers must consider What can I do to help my students thrive in the wide world of physical education Making Every PE Lesson Count is underpinned by six pedagogical principles challenge explanation modelling practice feedback and questioning Good PE teaching is littered with all these principles not as a checklist or plan as such but to ensure that teaching is well structured and thought out This book aims to bring the evidence around effective teaching linked to the six pedagogical principles to life through the lens of a physical education teacher It focuses on all aspects of PE in secondary schools with reference to real life examples from a huge range

of sports and physical activities and classroom theory James links his findings back to the subject throughout and offers reflective questions for teachers to sharpen their practice Making Every PE Lesson Count aims to synthesise the latest research on teaching and learning and link it specifically to PE There is a huge amount of evidence available for teachers and this book acts as a practical guide that will successfully bridge the gap between the world of academic research and PE teaching
