

AMA Style Guide

[Quick Tips](#) | [Citing Print Resources](#) | [Citing Electronic Resources](#) | [Formatting](#)

This is a guide to the most frequently used reference types, based on the *AMA Manual of Style: A Guide for Authors and Editors*, 10th edition, 2007. It is an adaptation of a guide produced by Terri Jankowski, librarian and assistant director of user experience at the University of Washington Health Sciences Library, and is posted here with her permission.

If you don't see an example for your type of reference, consult the complete *AMA Manual of Style* located in the reference section of OBU's library at REF 808.06651 A479m.

When to Cite

You need to cite when:

- using a direct quotation, even if it is in quotation marks.
- using facts that are not common knowledge (what the reader can reasonably be expected to know).
- paraphrasing or rewriting the author's ideas.
- summarizing the data or argument of an author.
- using the key words or phrases from the author or using synonyms.
- mentioning the author's name in your text.
- writing a sentence that mostly consists of your own thoughts, but you have made a reference to another author's ideas.

When in doubt, err on the side of caution, and cite.

Ama Manual Style Guide

TD Snyder

Ama Manual Style Guide:

If you ally habit such a referred **Ama Manual Style Guide** books that will manage to pay for you worth, acquire the extremely best seller from us currently from several preferred authors.
