ALGEBRAIC EXPRESSIONS & PROPERTIES

A **variable** is a symbol that is used to represent an unknown quantity. An **algebraic expression** is a mathematical expression that contains one or more variables, one or more numbers, and one or more arithmetic operations.

Writing Expressions

Verbal expressions can be translated into algebraic expressions.

Verbal Expression	Algebraic Expression
a number decreased by 15	$a - 15$
8 less than 3 times a number	$3a - 8$
the quotient of a number and 2 plus 3 times the number	$\frac{a}{2} + 3a$
6 more than the cube of a number	$a^3 + 6$
a number increased by 3, quantity squared, divided by 5	$\frac{(a+3)^2}{5}$

Order of Operations

The order of operations is a set of rules that determines which operations to perform first when evaluating a numerical expression.

1. Evaluate within grouping symbols.
2. Evaluate all powers.
3. Multiply and divide from left to right.
4. Add and subtract from left to right.

Properties of Real Numbers

For real numbers a , b , and c , the following properties are true.

Property	Expression
Commutative Property of Addition	$a + b = b + a$
Commutative Property of Multiplication	$a \cdot b = b \cdot a$
Associative Property of Addition	$a + (b + c) = (a + b) + c$
Associative Property of Multiplication	$a \cdot (b \cdot c) = (a \cdot b) \cdot c$
Distributive Property	$a \cdot (b + c) = a \cdot b + a \cdot c$
Additive Identity Property	$a + 0 = a$
Additive Inverse Property	$a + (-a) = 0$
Multiplicative Inverse Property	$a \cdot \left(\frac{1}{a}\right) = 1, a \neq 0$
Multiplicative Property of Zero	$a \cdot 0 = 0$

Properties of Equality & Substitution

For real numbers a , b , and c , the following properties are true.

Property	Description	Symbols
Reflexive Property	A number or quantity is equal to itself.	$a = a$
Symmetric Property	If a quantity is equal to another quantity, then the second quantity is equal to the first quantity.	If $a = b$, then $b = a$.
Transitive Property	If a quantity equals a second quantity and the second quantity equals a third quantity, then the first quantity equals the third quantity.	If $a = b$ and $b = c$, then $a = c$.
Substitution Property	If two quantities are equal, then one quantity may be substituted for the other in an expression, and vice versa.	If $a = b$, then b can be substituted for a in an expression, and vice versa.

Parts of an Expression

A **term** is a number, variable, or the product of numbers and variables in an expression. Like terms are terms that have the same variables raised to the same powers. Two quantities that are being multiplied in an expression are called **factors**. The **coefficient** of a term is the numerical factor of the term. A term that consists of a number and no variables is called a **constant**.

- EX:** Identify the terms, factors, and coefficients in the expression $-6a^2 + 4a - 2a$.
1. There are 3 terms: $-6a^2$, $4a$, and $-2a$.
 2. The terms $4a$ and $-2a$ are like terms because they have the same variable raised to the same power.
 3. The factors of the terms are -6 , a , and a for the first term, 4 and a for the second term, and -2 and a for the third term.
 4. The coefficients of the terms are -6 , 4 , and -2 .

EX: To compute annual compound interest, you multiply the principal investment by the quantity of one plus the interest rate, raised to the number of years of compounding. Define quantities and write an expression to model compound interest. Describe the parts of the expression.

1. Define variables.
Let P represent the principal investment, let r represent the interest rate, and let n represent the number of years.
2. Translate the verbal expression into an algebraic expression.
"multiply the principal": P
"quantity of one plus the interest rate, raised to the number of years": $(1 + r)^n$
The expression is $P(1 + r)^n$.
3. Describe the parts of the expression.
The expression contains two factors: P and $(1 + r)^n$. The first factor is the variable P . The second factor contains the variables r and n .

REASONING WITH QUANTITIES

The units of a quantity can help you understand and solve multi-step problems.

Dimensional Analysis

Dimensional analysis is the process of using conversion factors to change from one set of units to another set of units.

- EX:** Jamie jogged 495 feet in 45 seconds. What was her speed in miles per hour? Write the given information as a ratio. Then use appropriate conversion factors to change units.

$$\frac{495 \cancel{ft}}{45 \cancel{s}} \cdot \frac{1 \cancel{mi}}{5280 \cancel{ft}} = \frac{1 \cancel{mi}}{480 \cancel{s}}$$

Convert from feet to miles.

$$\frac{1 \cancel{mi}}{480 \cancel{ft}} \cdot \frac{60 \cancel{ft}}{1 \cancel{min}} = \frac{1 \cancel{mi}}{8 \cancel{min}}$$

Convert from seconds to minutes.

$$\frac{1 \cancel{mi}}{8 \cancel{min}} \cdot \frac{60 \cancel{min}}{1 \cancel{hr}} = \frac{7.5 \cancel{mi}}{1 \cancel{hr}}$$

Convert from minutes to hours.

Jamie's speed was 7.5 miles per hour.

Modeling with Appropriate Units

When modeling with quantities, it is important to choose appropriate units.

Quantity	Common Units
length or distance	millimeter (mm), centimeter (cm), meter (m), kilometer (km), inch (in.), foot (ft), yard (yd), mile (mi)
mass or weight	centigram (cg), gram (g), kilogram (kg), metric ton (t), pound (lb), ton (T)
capacity or volume	milliliter (mL), liter (L), kiloliter (kL), fluid ounce (fl oz), cup (c), pint (pt), quart (qt), gallon (gal), cubic centimeters (cm ³), cubic meters (m ³), cubic inches (in. ³), cubic feet (ft ³), cubic yards (yd ³)
area	square millimeters (mm ²), square centimeters (cm ²), square meters (m ²), square kilometers (km ²), square inches (in. ²), square feet (ft ²), square yards (yd ²), square miles (mi ²)

Accuracy & Precision

Accuracy describes how close a measured value is to the actual value.

- EX:** Thomas is 5 feet 10.25 inches tall. A measurement of 5 feet 10 inches is more accurate than a measurement of 6 feet when describing his height.

Precision describes the exactness of a measurement and is dependent on the unit of measure. The **precision unit** is the smallest unit on the tool being used to measure. As the units of measurement get smaller, the measurement gets more precise.

- EX:** A ruler that measures in millimeters is more precise than a ruler that measures in centimeters.

EX: For a scale that gives weight in pounds and ounces, the precision unit is ounces.

- Just because a measure is more precise, does not mean it is more accurate.
EX: The actual length of a block of wood is 3 feet. A measurement of 5 foot 3 inches is more precise than a measurement of 4 feet, but it is less accurate than 4 feet which is closer to the actual length of 3 feet.

Math Practice 6: Attend to precision.

When solving multi-step problems, it is important to communicate precisely to others. This includes using appropriate units of measure, calculating accurately, and expressing numerical answers with an appropriate degree of precision.

9th Grade Math Study Guide:

9th Grade Math Study Guide Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**9th Grade Math Study Guide**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.

9th Grade Math Study Guide Introduction

9th Grade Math Study Guide Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. 9th Grade Math Study Guide Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. 9th Grade Math Study Guide : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for 9th Grade Math Study Guide : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks 9th Grade Math Study Guide Offers a diverse range of free eBooks across various genres. 9th Grade Math Study Guide Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. 9th Grade Math Study Guide Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific 9th Grade Math Study Guide, especially related to 9th Grade Math Study Guide, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to 9th Grade Math Study Guide, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some 9th Grade Math Study Guide books or magazines might include. Look for these in online stores or libraries. Remember that while 9th Grade Math Study Guide, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow 9th Grade Math Study Guide eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the 9th Grade Math Study Guide full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of 9th Grade Math Study Guide eBooks, including some popular titles.

FAQs About 9th Grade Math Study Guide Books

1. Where can I buy 9th Grade Math Study Guide books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a 9th Grade Math Study Guide book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of 9th Grade Math Study Guide books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are 9th Grade Math Study Guide audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read 9th Grade Math Study Guide books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
