From Third World to First: The Singapore Story, 1965-2000 Lee Kuan Yew, 2012-09-15 Few gave tiny Singapore much chance of survival when independence was thrust upon it in 1965 Today the former British trading post is a thriving Asian metropolis with one of the world's highest per capita income The story of that transformation is told here by Singapore's charismatic controversial founding father Lee Kuan Yew From Third World To First continues where the best selling first volume The Singapore Story left off and brings up to date the story of Singapore's dramatic rise It was first published in 2000 Delving deep into his own meticulous notes and previously unpublished papers and cabinet records Lee details the extraordinary efforts it took for an island city state in Southeast Asia to survive with just a razor's edge to manoeuvre in as Albert Winsemius Singapore's economic advisor in the 1960s put it We read how a young man of 42 and his cabinet colleagues finished off the communist threat to the fledgling state's security and began the long hard work of building a nation creating an army from scratch stamping out corruption providing mass public housing and masterminding a national airline and airport Lee writes frankly about his trenchant approach to political opponents and his often unorthodox views on human rights democracy and inherited intelligence aiming always to be correct not politically correct Nothing about Singapore escaped his watchful eye whether choosing shrubs for roadsides restoring the romance of historic Raffles Hotel of persuading young men to marry women as well educated as themselves Today's safe tidy Singapore certainly bears his stamp but as he writes If this is a nanny state I am proud to have fostered one

Aristocracy of Armed Talent Samuel Ling Wei Chan, 2019 When Singapore declared independence in 1965 it faced the monumental task of building a military from scratch Aristocracy of Armed Talent tells the story of the development of the Singapore Armed Forces through a collective portrait of its leaders This book is based on interviews with twenty eight flag officers offering a firsthand look at Singapore's military from the very leaders who helped shape it It addresses the challenges Singapore faced in building its officer corps and encouraging individuals to stay and make a career out of military

service In a society where the majority Chinese population traditionally devalued military careers and where military service was associated with foreign occupiers and colonizers Singapore had to learn to build a culture of leadership for its armed forces It also dispels some of the myths that have shrouded military culture in the country As former flag officers are often recruited into senior civil service and political roles understating the military elite culture is central to understanding Singapore s politics This book provides a rare window on an exceptional and globally influential institution *Tempo* ,2008
