**Myanmar's Enemy Within** Francis Wade,2019-06-15 In 2017 Myanmar's military launched a campaign of violence against the Rohingya minority that UN experts later said amounted to a genocide More than seven hundred thousand civilians fled to Bangladesh in what became the most concentrated flight of refugees since the Rwanda genocide of 1994 The warning signs of impending catastrophe that had built over years were downplayed by Western backers of the political transition and only when the exodus began did the world finally come to acknowledge a catastrophe that had been long in the making In this updated edition of the book that foreshadowed a genocide Francis Wade explores how the manipulation of identities by an anxious ruling elite laid the foundations for mass violence It asks who gets to define a nation How can democratic rights be weaponised against a minority And why at a time when the majority of citizens in Myanmar had begun to experience freedoms unseen for half a century did much lauded civilian leaders like Aung San Suu Kyi become complicit in the most heinous of crimes

possible The only lawyer that would fight despite the public s pressure to make sure I don t go down for this Conveniently he left out that he was sending his daughter Nebraska someone who he knows I have a history with She fled Nebraska years ago promising to never come back but here she is looking more beautiful than ever before I told myself if I saw her again I d act like I never felt anything for her but with her safety compromised because of this case I ll do whatever it takes to keep her safe
