Solar Energy Index George Machovec,2013-10-22 Solar Energy Index is an index of resources dealing with solar energy including archival materials from the International Solar Energy Society collection references to articles in major solar journals patents and pamphlets National Technical Information Service reports unbound conference proceedings and other assorted reports Both theoretical and how to do it publications are well represented This book places particular emphasis on terrestrial solar thermal and photovoltaic applications of solar energy Subjects are classified according to physics terrestrial wind collectors space heating and cooling economics materials distillation thermal electric power systems photoelectricity solar furnaces cooking biological applications water heaters photochemistry energy storage mechanical devices evaporation sea power space flight applications and industrial applications Topics covered range from wind energy and bioconversion to ocean thermal energy conversion heliohydroelectric power plants solar cells turbine generation systems thermionic converters batteries and fuel cells and pumps and engines This monograph will be of interest to government officials and policymakers concerned with solar energy

Future Spacecraft Propulsion Systems and Integration Paul A. Czysz,Claudio Bruno,Bernd Chudoba,2017-08-30 The updated and expanded third edition of this book focuses on the multi disciplinary coupling between flight vehicle hardware alternatives and enabling propulsion systems It discusses how to match near term and far term aerospace vehicles to missions and provides a comprehensive overview of the subject directly contributing to the next generation space infrastructure from space tourism to space exploration This holistic treatment defines a mission portfolio addressing near term to long term space transportation needs covering sub orbital orbital and escape flight profiles In this context a vehicle configuration classification is introduced covering alternatives starting from the dawn of space access A best practice parametric sizing approach is introduced to correctly design the flight vehicle for the mission This technique balances required mission with the available vehicle solution space and is an essential capability sought after by technology forecasters and strategic planners alike
