Advanced Placement Classroom Kathryn L. Johnson, Laurie Heinemann, 2021-09-03 *Advanced Placement Classroom: A Midsummer Night's Dream* takes students inside Shakespeare's well-loved comedy by providing teachers and students with a detailed overview of the play along with interesting and challenging activities geared for the advanced language arts student. Students will examine Shakespeare's inventive language by collecting words and phrases to use later in a Sweet Talk Challenge, akin to a modern-day poetry slam, discover the history behind the play by researching and giving presentations on Elizabethan occupations, and recognize the challenge of performance by reenacting scenes. Prufrock's new line of innovative teaching guides for the Advanced Placement classroom is designed to engage students with creative learning activities that ensure Advanced Placement success. The Teaching Success Guide for the Advanced Placement Classroom series helps teachers motivate students above and beyond the norm by introducing investigative, hands-on activities including debates, role plays, experiments, projects, and more, all based on Advanced Placement and college-level standards for learning, Grades 7-12.

The Chimpanzees of Rubondo Island Josephine Nadezda Msindai, Volker Sommer, 2022-10-05 How did a random batch of chimpanzees come to populate a small island in Tanzania where apes had never lived before? Combining information gathered from fieldwork, laboratory, and archival research, this book tells the unique story of chimpanzee babies taken from their forest homes in West Central Africa and sold to European zoos and circuses, to then be shipped to Lake Victoria and set free on Rubondo Island. These founder animals learnt what to eat, how to build nests, to breed, and raise young, ultimately forming a chimpanzee typical fission-fusion society that today is thriving. The authors compare the ecology, behaviour, and genetics of the Rubondo population with communities of wild chimpanzees, providing exciting insights into how our closest relatives adjust to changing environments. At the same time, a reconstruction of the historical context of the Rubondo experiment reflects on its chequered colonial heritage and the introduction is viewed against current threats to the survival of apes in their natural habitats. The book will be of interest to scholars and professionals working in primatology, animal behaviour, conservation biology, and postcolonial studies.

Emilsen, Patricia Curthoys, 2025-04-25 Often theological colleges are the site of tension between the aspirations of the overall institution of the church and the goals of the particular college itself While they are usually the first called upon to solve the numerous problems facing the modern church yet just as likely they are criticized for being too academic too out of touch with contemporary society and too expensive A fair reading of the ten essays in *Things That Matter* will refute or at the very least question these criticisms The authors of this inspiring collection although far from uncritical clearly show that since 1999 when United Theological College the Uniting Church's premier college in New South Wales became part of Charles Sturt University's School of Theology there have been great benefits for students faculty the church and the broader community
